

# RADIO MERCED

514 E. Bellevue Road  
Atwater, Ca. 95301

February 25, 2002

Dear Sir,

Thank you for the letter and I am glad to hear you can hear us at night all the way in Colorado, we have received letters from Finland along with some other locations. You have the call letters correct...KTIQ, The Ticket 1660(all Sports)...and the transmitter is in Atwater, Ca. in the lowest part of the San Juoquin valley(about 100 ft. above sea level). The rig is a new 10k Harris D10 running 10k daytime and 1k night time and non-directional 24/7. A very unique antenna...sort of like an umbrella antenna on a 2 station FM tower...the antenna runs along the guy wires on the top of the tower, about 1/2 way down the guy wires.

Once again, thank you for the letter and I hope this answers your Questions.

Sincerely,

John Barone  
Program Director  
Production Director  
Chief Operator
