Mr. Maurice W. Nittler
P. O. Box 94
Geneva, Nebraska

Dear Mr. Nittler:

Thank you very much for your letter of April 4, 1955, stating that you received our frequency test on April 4 from 12:15 to 12:30 P.S.T.

Your times are very correct and I might state that reception so far away with built-in antenna is quite amazing. It's done quite often, but with larger antenna systems.

I was interested in your report in that I hail from the midwest too. I spent most of my life in Hillsboro, Kansas--a small town in central Kansas near Wichita.

Thank you again for your report.

Sincerely,

Norman Berg
Chief Engineer-KWSO
