Mr. Maurice W. Nittler
1755 So. Vallejo Street
Denver 23, Colorado

Dear Mr. Nittler:

Thank you very much for your reception report of December 12, 1962. We are always glad to receive such reports of station performance. So far our furthest was from New Zealand. We are a total Spanish language station (daytime only).

We are using a Bauer transmitter, feeding a 368 foot, $\frac{5}{8}$ wavelength tower. If nothing else, we are very proud of our efficient antenna system, having spent much effort in engineering the system. This makes our 500 watts get out and go.

Sincerely,

Harold O. Torosian
Chief Engineer
X60GX
