April 1, 1959

Dear Mr. Nittler,

I am sorry for the delay in answering your very nice letter dated 23 March. KXLA is increasing their power from 10,000 watts to 50,000 starting May 15 which has increased our mail load considerably already.

In answer to your questions on verifying your reception. Yes you were correct right down the line. Jack Morris is the DJ from 12 midnight to 5 am. Horrible hours isn't it! He asked me to answer your letter and tell how pleased he is to know that he can be heard in Colorado and to thank you for taking the time to write to the station. We hope you will continue to listen to our station and that we will be coming in even stronger after May 15th.

Yours truly,

MARY A KELLEY
Station Librarian
