Dear Bill:

Thank you for your reception report of 22 September 88. Your program excerpts were correct, and I am pleased to verify your report.

I note with particular interest that you have DX-ed us successfully under all of our previous call letters. That's certainly unusual, and I'm glad to know of it. You have, no doubt, received our coverage map in the past, and we have not changed any of the station's parameters since its inception in 1955. I do expect, though, that you have noticed some changes since then as far as receivability is concerned.

Thank you again for your thorough report.

Sincerely,
