Dear Mr. Nittler,

I was delighted to receive your reception report for KKPC. We are only 1,000 watts on a local channel and usually our signal does not reach much further than Pueblo County.

I am happy to confirm that on September 19, 1994 between 5:55 p.m. and 6:00 p.m. MDT, you were indeed listening to KKPC on 1230 khz on the AM dial.

KKPC is licensed to Pueblo Community College (which has a small campus in Cortez) and provides programming through the Business Radio Network. In addition to providing a wide variety of community programming, KKPC provides training to Broadcasting and Production Technology students at Pueblo Community College. We are also the local affiliate for Air Force Academy football.

Thanks again for listening and please accept this KKPC pen as a token of our appreciation.

Regards,

Lee Douglas  
Station Manager
