April 10, 1986

Mr. Bill Nittler
Box 824
Mancos, CO. 81328

Dear Bill:

This is to confirm your DX letter of April 7, and the program information contained therein as 100% correct. The "Pacific" is Seeber Pacific Broadcasting Company.

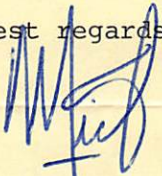

In my many years of broadcasting, I still enjoy receiving the DX listener's letters and contacts received by the stations of which I have been employed. Yours is the first received since we purchased the station in late February.

I appreciate the information on KPAG in Pagosa Springs. I was aware that they are the closest station to us occupying 1400 KHz, however, I wasn't aware of KRLN in Canon City. Thanks for that info!

During the years, I have known a few people such as yourself who have developed the hobby of DXing, both commercial broadcast stations and SWL's, both hams and non-hams.

Thanks again, Bill, for your nice letter and contact. If you ever find yourself in Delta, please stop by for a tour of the station.

Best regards,

MICK SEEBER
Pres/General Manager

P.S. If you are a radio amateur, "73's", Mick, KA6LJL (General Class and California transplant)!
