Englewood, Colorado

Dear Bill:

Thank you very much for your letter. It is always a pleasure to hear from our listeners.

Your listing of our program schedule is quite correct and we're elated that our signal is clear and without interference. However, in as much as our transmitter is located in Englewood, we could expect nothing less. But we do sincerely thank you for listening to K Q X I and hope that you will urge other members of your fine radio club in more remote points to monitor KQXI.

Sincerely,

A handwritten signature in blue ink that reads "John Patrick".
