Dear Bill,

I am happy to verify your reception of KRVV on both April 1, 1984 and recently on March 20, 1985. I'm sorry that your request took so long to be answered. Your April '84 letter was missplaced with some answered letters.

KRVV currently broadcasts from our 300' tower located in Minturn Co. with a power of 5000 watts, Daytime only.

We have applied for, and expect the granting of a frequency change to 610KHz in the near future. This change will allow us a much stronger signal in Eagle and Summit Counties.

Thank You for your intrest in KRVV,

Marty Hijmans
Station Engineer
