Englewood, Colorado

Dear Mr. Nittler:

We recieved your very interesting letter concerning our FQ maintance check on Auxiliary Transmitter. By the way the Auxiliary is a Gates. Our regular transmitter is a 1,000 watt Collins. We recieve letters such as yours every once in awhile when we run FQ checks and Maintenance checks. I am the chief engineer here at KVFC and was very glad to hear from you. I also write news and do the sports over the station. Drop in and see us if you are in our part of the country. We are a daytime station, but have applied for nighttime.

Sincerely,  
*Jim Hawkins*
