Mr. Bill Mittler  
603 W. 1st  
McCook, NE 69001

Dear Bill:

You have indeed received our magnificent signal in McCook!

We are 1KW daytime on 1530KC; signed on in Dec. 1963 with the last all Western Electric facility in the World, and incidently its still all intact. Sometime this month we are due our new RCA transmitter and a passell of new audio processing equipment--perhaps the next time fate drops us on you it will be really dominant.

Thanks for your letter.

Cordially,

*William S. Cook*
