OCALA, FLORIDA

Feb. 14th 1955

Mr. Maurice W. Nittler
Geneva, Nebraska.

Dear Mr. Nittler: many thanks for your report of equipment test Feb. 6th, which conforms in every way to the log and I am pleased to verify it as correct.

A transmission is usually conducted the first Sunday in each month from about 5¹⁵ until 5⁵⁵ AM EST for frequency measurement.

Normal coverage of the station during regular sunrise to sunset operation is limited to Central Florida. We have no snow, but experienced temperatures 26 degrees several times since the first of the year.

Yours very truly,
Lloyd H. Lutz, Chief Engineer
