

# WDWD

1000 WATTS - AM - 990 KCS

12000 WATTS - FM - 101.1 MGS . . STUDIOS AND TRANSMITTER - PARROTT ROAD . . DAWSON, GEORGIA

November 22, 1954

Mr. Maurice W. Nittler  
Box 94  
Geneva, Nebraska

Dear Maurice:

For many years, now, I have received verification reports from various BC and SW listeners throughout Canada, Mexico, Puerto Rica, and the United States. Most, if not all of the listeners were members of radio clubs similar to yours.

Never before have I known what the objective of the listeners could be. So, I'm asking you, as a personal favor, to please explain the objectives of your club are in accumulating verification reports from BC stations. Would you drop me a line and explain.

This will formally verify your reception of WDWD at 0100 EST on the morning of November 17.

Kindest regards,

DAWSON BROADCASTING COMPANY

Joe Stephens  
Chief Engineer
