Maurice W. Nittler
Box 94,
Geneva, Nebraska
Dear Mr. Nittler,

Am unable to verify your report of reception as all the program logs for the year 1954 have been destroyed. However, I can confirm the time of sign on, the correct address and telephone number of Peoples Loan and Finance Co, and the program, "Morning Jamboree". If this is enough for verification. please consider it as such.

The Federal Communications Commission requires that logs be kept for a period of one year. This stations logs are kept for two consecutive years. That is, we have logs dating from the first of January, 1955, through the present date. At the end of this year we will dispose of all the logs for the year of 1955.

Hope you will be listening our way again, and, I promise you'll receive quick verification of your report. We like you to send them. Thanks for this one.

Yours truly,

J. M. Iudwick
