McCook, NE 69001

Dear Sir:

This is to verify that WJTH was on the air on February 12, 1979 from 1:28 to 2:05 AM EST running DX tests for the National Radio Club. The signals you described in detail in your letter correspond to my records of this test.

To date I have received seventeen letters concerning this test, most of them to the north and west. WJTH is a 1000 watt contemporary music daytime station. We have only been on the air since June 16, 1977 and this was our first test for the National Radio Club.

We at WJTH are proud to have you as one of our listeners. If by any chance you hear us again, please let us know.

Sincerely,

John G. Cunningham
