

KDMI - AM 1460

5,000 WATTS • FULL TIME

IOWA'S STRONGEST

AM COMMERCIAL RELIGIOUS STATION

February 1, 1994

Mr. Bill Nittler
Box 824
Mancos, Colorado 81328

Dear Bill,

Thank you for your reception report for 1460 AM, on April 21, 1992. A check of the station logs would indicate that the programming you reported hearing at 10:47 PM, CDT on that date would be correct.

I am sorry your report was not confirmed before this time. As you can see our call letters and programming have changed since that time. But at the time you reported a reception of 1460 AM the call letters were KGGO.

Like KGGO was, KDMI is a 5,000 watt Regional AM station. We operate at 5,000 watts non-directional in the daytime and with 5,400 watts at night with a directional pattern. The extra watts at night are to make up for the loss of efficiency in the night load for the pattern.

Our format is Religion and Sports. I hope you will try to get a reception on us with our new format and if you do I will respond promptly with a confirmation letter. Please pass on the word to any fellow DX'ers that we welcome reports of our reception. We have confirmed reception of this station as far away as Finland, Sweden, and New Zealand.

Sincerely,

Jerry Steg
Station Manager
KDMI-AM 1460
" Regional Gospel Radio"

PS. Our first day on this frequency was January 1, 1994.
