

# KQ Fifteen

1560 - AM

Dec. 22, 1978

Mr. Bill Nittler  
603 West 1st  
McCook, Nebraska 69001

Dear Bill:

We are pleased with your reception report. We are a 1,000 Watt daytime station operating into a 330 ft. tower at 1560 k.c. (almost 5/8 wave). The transmitters used are a Harris MW-1, and a McMartin BA-1K, driven by a Dorrrough tri-band audio processor.

At present, we suspect problems in our radiation to the west-southwest, but, perhaps the situation is not as bad as we had thought.

Again, Bill, thank you very much for your report.

Merry Christmas!

James Prosser  
Chief Engineer  
KQXV-AM KQKQ-FM
