Dear Sir:

This letter confirms the report that you gave us on our station here in Creston. We operate on an assigned freq of 1520 kilocycles with a power output of 1000 watts. Our operating time is from 6am until 6pm at nite. The transmitter is a raytheon transmitter complete with raytheon console and we have a wincharger antenna 285 feet in the air and is guyed three ways with three sets of guys. Our programming consists mostly of music news and sports.

Hoping that this will confirm your receiving us and thanking you for the report, I remain;

Yours Very Truly

Henry L. Ankeny
Chief Engineer
