Bill Nittler  
Box 1351  
Kemmerer, Wy. 83101

Dear Bill;

I recieved your letter today in regards to the reception of KAYT. I must admit that I was not to suprised that you were able to get "Country KAYT" in Kemmerer. Our 1,000 watts on 970 Khz usually reaches out for about one hundred miles. Of course this is not a prime signal. In the past we have recieved letters from as far away as Nebraska and Iowa. You must have a good reciever to be able to separate 950 from 970.

Thank you for your letter and good luck with your DX'ing.

Sincerely,

A handwritten signature in blue ink, appearing to read "Don Henderson", with a stylized flourish at the end.

Don Henderson
