RE: Reception of KOUU

Sorry for the delay in responding to your original request for verification of reception of KOUU, it was apparently misplaced. KOUU-AM is a 1000 watt station located in Pocatello, Idaho which is in the southeastern part of the state. It is a simulcast of our FM station KZBQ.

We appreciate you sending us a letter telling about your reception of KOUU, the Country Cow. Keep listening to your radio.
