Right on the button, Bill.

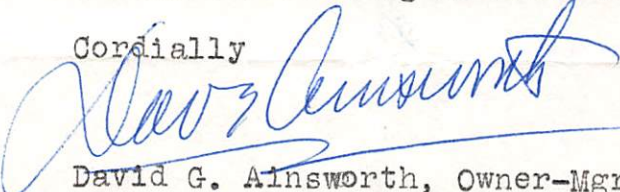

We were making the frequency check exactly as noted in your good letter. Frequency check was actually from 1:15 to 1:30 a.m.

You will be interested to know that we have received the report from Northwest at Pendleton, Oregon. We were 3 cycles plus - we've stood there without a waver for about two years.

Also for your information, we try to run a frequency check every other month - first Monday A.M. Next one should be April 3 at 1:15 a.m.

Thanks for letting me hear from you.

Cordially
