

WFAM-TV . . McCARTY LANE . . LAFAYETTE, INDIANA

TELEPHONE 2-4300

Feb. 4 1954

Dear Maurice;

Here is your verification of our frequency check of Jan. 27 1954. ~~I~~ I am the engineer ~~on duty~~ on duty on tues. and Fri. nights and therefore catch all freq. checks which come on every other tues. night. The one you heard was with our R.C.A. Auxillary transmitter. Our Main transmitter will be on Feb. 10 from 12:30 till 12:45 a.m. for another measurment. The main transmitter is a Raytheon: both it and the R.C.A. ~~are~~ are 250 watt driving a non-directional antenna. Our tower is 371 ft. and is located just off 52 by-pass on the east side of Lafayette Indiana. If you are ever out this way drop in and see us. We also have a TV. station here that is quite nice we think. Any time you ~~hear~~ hear us on with a frequency check or regular program we will be most glad to hear from you. We operate on a frequency of 1450 kc. from 6:00 a.m. to 12:30 a.m.

~~I~~ I hope you will excuse the very poor typing as it has been about 5 years since high school and I haven't been near one ^{typewriter} for quite some time.

Sincerely yours

Keith Spencer Eng.
