Dear Mr. Nittler,

This is to verify your reception of W K A M on the morning of February 24, 1969. One correction on the report, Kosciusko Broadcasting Corp., rather than Gospel.

We broadcast Middle of the Road programming through the day, going to Country & Western for three hours in the evening. We operate on 1460 kc, with 1000 watts non directional daytime and 500 watts directional night.

Thanks for listening and for expressing your interest.

Sincerely yours,
