Mr. Maurice W. Nittler,  
Box 94  
Geneva, Nebraska

Dear Sir:

This will verify your report of reception of WRAY-AM on the morning of July 8, 1954, at about 12:25 AM.

WRAY-AM transmits from a 470 foot tower topped with a directional TV antenna, for channel 52. Our TV is beamed north and South.

WRAY-AM uses a Gates BC-1-F 1kw transmitter and is authorized for daytime operation on 1250 kc.

We are always pleased to receive DX reports, our pride and joy being a couple of letters from New Zealand about three years ago, when we had only a 210 ft tower.

Lots of luck to you and your club, and continued DX.

Regards,

Harold S. Bass, W9TKK  
Chief Engineer, WRAY-AM and TV
