

WTTT 1370 k.c. 5000 watts day - 500 watts night

WTTV-FM 92.3 meg. 37.2 kilowatts

535 south walnut • bloomington, indiana • edison 2-3366

Dear SWL:

Many thanks for your report of April 2, 1962. Our log
checks with your reception here. WTTT/AM operates 5KW days
on a phased pattern, and 500W nights semi-directional.

WTTV/FM operates with an amp of 37.2 KW on 92.3 MCS, with
transmitter and tower located at Trafalgar, Indiana. Antenna
height is 1090 feet above average terrain. The studios for
both stations are in Bloomington, Indiana.

W. Frenneman, P.E.
