Box 112
Englewood, Colorado 80110

Dear Mr. Nittler:

We are always very happy to have reports from people and especially so from other states.

We checked our activity reports for that day, and are pleased to verify your claim that you heard us. We don't generally continue our tone modulation for so long a time, but we were having trouble with the overload relay kicking out the preceeding day, and we were modulating heavily for a check.

We are especially interested in hearing from states west of us. Yours and one other letter are all we have received from that direction. All the rest come from the northeast, New York, Pennsylvania, New Jersey, etc.

Thank you for your concern, and hope that you might hear us again. We are 250 watts, daytime only so you hit just one lucky chance.

Sincerely

Arthur L. Little
Chief Engineer
