Feb. 28, 1957

Maurice W. Nittler
Box 94
Geneva, Neb.

Dear Maurice;

Your ~~gso~~ received and am please to hear that we are received in Geneva. Thanks a million O.M. Am more than a little surprised you could receive us on a small set like that but pleases me no end. We are 5 KW directional at that time of day and send very little power in that direction. We are also in the process of installing a new transmitter here and should have a much better quality signal.

I am also happy to report that I know you part of the country quite well as I have relatives living around there. I have an Aunt living in Davenport and also 2 other Aunts in Hastings. Various other

relatives live in that general vicinity.
so it seems like old home week to hear
from someone up there, hi hi.

Thanks again Q.M. for your GSO and
until I hear from you again I remain

Respectfully
Richard D. Croft.
