

SERVING SOUTHEAST KANSAS WITH 1,000 WATTS

CECIL W. ROBERTS
PRESIDENT

DUANE W. HOISINGTON
GENERAL MANAGER

KCRB

CHANUTE, KANSAS

October 10, 1955

Mr. Maurice W. Nittler
Box 94
Geneva, Nebr.

Dear Maurice:

Many thanks for your very nice, accurate report of the reception of KCRB on October 4, 1955.

We checked our program log and found your report to be correct. We are amazed that we were able to put a signal you could copy thru KSO which has 5,000 watts power and limits our coverage to the North and East.

If you have an occasion to listen to short waves and the 75 meter Amateur Fone band you might listen some evening between 3900 kc. and 3950KC where I operate my 1,000 watt Ham Phone station most every night. My call letters are WØNOE.

Thanks again for your nice report on KCRB.

Cordially yours,

Duane W. Hoisington
