Bill Nittler
P. O. Box 112
Englewood, Colo. 80110

Dear Mr. Nittler,

This will confirm your reported reception of
KIND on the morning of January 4, 1967.

Glad you were able to add our station to your
log, but you must have found our transmission
pretty bad on the test.

We have recently installed a new CBS Volumax
at the transmitter and have had trouble
getting the RF out of the transistorized
circuit. It isn't clean yet, so we probably
will clutter up 1010 k.c. again one of these
nights.

I don't recall the music that was used on
January 4th, but it was on cartridge tape
(3½ minutes) along with the ID. For pro-
gram tests of that nature, we skip the
cue tone and let the tape repeat, eliminating
any worry about proper identification being
made.

Very truly yours,

Nelson Rupard
