KOFO

OTTAWA, KANSAS
66067

TO: Bill Nittler

FROM: Bob Davis

DATE: 10 Feb 68

SUBJECT: Reception report

This is to confirm your reception of KOFO-AM, 5 February 1968. Only two reports received today (Saturday) but in the previous three days, KOFO collected 43 other reports from all over the United States. Much better reception than I had expected with our 250 watts. Our transmitting antenna is a 400-foot tower, which also supports our FM antenna. KOFO-FM operates on 95.7 megacycles, with 6700 watts ERP. Thanks,

Bob Davis, C.E.
