Maubice W. Nittler

Box 94

Geneva, Nebraska

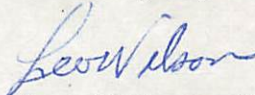

Dear Mr. Nittler,

This will varify your report of receiving our test broadcast of Jan.28, 1955. of Radio Station WHOP, Hopkinsville, Ky.

The equipment is a composite transmitter that has been in service for about 28 years. We are in the process of installing a new transmitter at this time. You are probably the last person to hear a test broadcast of this old one.

Our regular test period is the fourth Friday morning of each month at 2:25 CST. Tune in again.

Thank you,

Leo Wilson Chief Engineer  
Radio Station WHOP WHOP-FM  
Hopkinsville, Ky.
