

Hopkinsville, Ky.
September 2, 1954

Dear Maurice,

Thanks for your very fine report on reception of WKOA. Your "log" was quite accurate and this card confirms your DX reception August 31, 1954.

WKOA is using Gates equipment throughout, the transmitter being their BC-1F (1-KW) shunt-feeding a 150' tower. Our operation will be daytime, non-directional. We had a little trouble loading up the antenna, but your report plus a couple of others (Grimsley, Tenn., and Waterloo, Iowa) in the same mail as yours, indicate that we must be radiating a little something.

Again, thanks.

Walter B. Wilson
Chief Engineer, WKOA
