

Taylor County Broadcasting Co.

Mr Maurice W. Nitler  
Box 94  
Kenosha Wisconsin

Dear Sir:

Thanks for your reception report of WLCK on July 25th 1954. We are pleased to be reaching into Nebraska -

our power here is only 250 watts, but our tower is 340' high which gets our signal off to a mighty good start.

our population here is around 3,500 and we're enduring our third year of hot, dry weather with an overabundance of grass hoppers.

May I verify your report and again  
Thanks

Very truly yours,  
J. B. Crawley  
Chief Engr WLCK
