HAYNESVILLE BROADCASTING CORPORATION
P. O. BOX 189 PHONE 505
HAYNESVILLE, LOUISIANA
March 12, 1961.

Mr. Maurice W. Nittler
3663 So. Clarkson
Englewood, Colorado

Dear Mr. Nittler:

I am sorry that I have been this long in answering your letter, but I have just let it slip my mind.

We were very happy to receive your letter reporting your reception of KLUV. We have also received a letter from a man in Mass. also reporting this information to us. On the morning of February 27, 1961 our Chief Engineer was conducting a frequency test. I hope that this letter is sufficient enough to serve as a verification that you heard KLUV. Your times correspondes with those sent to us by the other man. If this letter isn't sufficient enough drop us another letter and include in it the information that you desire.

Haynesville is a small town of about 3,000 population and is located about 60 miles northeast of Shreveport and about 21 miles south of Magnolia, Arkansas. Haynesville was orginally a oil boom town, but now there isn't much drilling activity but Haynesville is still striving to prosper and grow.

Good luck to you in your radio work and we hope that if you are every down this way that you will look us up and visit with us. Thanks again for letting us hear from you.

Yours Sincerely,

Butch Burnham
