Mr. Maurice W. Nittler
Box 94
Geneva, Nebraska

Dear Mr. Nittler:

We were very pleased to receive your letter dated Feb. 17. We always appreciate letters telling us how and where our signal is received.

By the way, congratulations to you on being an NRC member.

Here is a bit of information on our city and station. As you probably already know, we have a power of 250 watts, with a frequency of 1450 kc's. We are situated in the northwestern part of the state. Natchitoches is the oldest city in the Louisiana Purchase. This station has been in operation since 1947. It was formerly K W C J. The call letters were recently changed to K N O C after a change in ownership and management.

Again thanks for writing to us....

Sincerely yours,

Jim Soileau
