

THE VOICE AND CHOICE OF CENTRAL LOUISIANA

P. O. Box 1489

ALEXANDRIA, LOUISIANA

August 19, 1954

Mr. Maurice W. Nittler
Box 94
Geneva, Nebraska

Dear Mr. Nittler,

We are delighted to verify your reception of KSYL as stated in your letter of August 18. KSYL does operate on an assigned frequency of 970 kilocycles with a power output of 1000 watts from 6:00 AM til 11:30 PM Monday through Saturday, and from 7:00 AM til 11:00 PM on Sundays. For your information, KSYL purchased KVOB about four years ago and assumed their frequency.

Thank you for informing us of your reception and much success in your National Radio Club work. If, at any time, we could be of any help, please feel free to call on us.

Yours very truly,
RADIO STATION KSYL

Nancy Walker,
Promotion Manager
