SEPTEMBER 28, 1956

Mr. Maurice W. Nittler
Box 94
Geneva, Nebraska

Dear Sir:

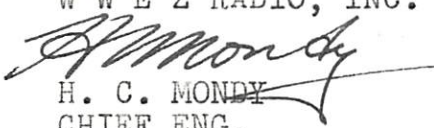

This will confirm your reception of W W E Z on the morning of September 24, 1956.

You will be interested to know that at 0331 of that same date, hurricane Flossie destroyed one of the four towers making up our 5 ku, in-line array and forcing us off the air until we were able to battle an 8-ft flood and cut loose the offending radiator at 1550 that afternoon.

Thanks for your reception report.

Yours very truly,

W W E Z RADIO, INC.

H. C. MONDY
CHIEF ENG.
