Dear Mr.

I'm sorry it's taken me so long to acknowledge your very kind letter stating that you heard our test program.

We've been troubled with our transmitter kicking out and then before we could find the cause it would kick on again. It was like looking for the man who taps you on the back and when you turn around he isn't there. Anyway I ran a test to try to get the trouble started and perhaps get a chance to find it. I think we found it. At any rate, the same kind of thing hasn't occurred since then.

Thanks again for your notice.

Harold W. Zeoli
