Mr. Maurice W. Nittler  
3663 S. Clarkson  
Englewood Colorado

Dear Maurice:-

Thank you very much for the wonderful letter we received this morning. We certainly appreciate reports like we are receiving of late. We are signing on the air much earlier this month, and I imagine the frequency sounds nice and clear early in the morning before the Manitoba 50KW goes on,- and others.

Our newsman has even worked up your letter, and one we received from Hill City Minn. the other day into a news item which we are using today on the air.

I would'nt mind going on the air about 5:45Am starting next month, when we are allowed to do so, and program just for DX. Read letters, dedicate tunes etc., to fellows like you who write us with their report. What do you think of the idea? Maybe we can get some kind of a club started. You send us letters, and we'll promote your area for those who decide to vacation out west etc., etc.,

Thanks again.... And, oh yes, this letter fully verifies your report of reception. There's no question about that, as I was on the air myself at the time,- as I am every early morning. I'll personally give you a "plug" or two on various mornings, after I think you may have received this letter, say about the morning of April 13th. about 6:03 AM as the first item on our Newscast. Or if you have a better date and time in mind, let me know.

Best Regards to you and the family.....

Sincerely,

Norbert C. Poepelman
