**NK BROADCASTING STATION**  
1600 KC                      5000 WATTS Nite and Day  
SUMMIT and GETTY                      MUSKEGON, MICHIGAN

October 6, 1954

Mr. Maurice W. Nittler  
Box 94  
Geneva, Nebraska

Dear Mr. Nittler:

This is to verify your reception report of  
W K N K of October 3rd, 1954. W K N K is a class  
III A Station operating on a regional channel of  
1600 KC with a fulltime power of 5000 watts.  
Da night only.

Our equipment is Gates all the way. Our X- mitter  
is Gates model BC5B. We are located approximately  
seven miles east of Lake Michigan and five miles  
S.E. of Downtown Muskegon. Our antenna system consists  
of in-line towers of uniform height, approximately  
150 feet above the ground insulators using series feed.  
We use the center tower only for non Da operation,  
Daytime operation and feed all four towers for night  
operation.

Wishingt you every sucess in DXing.

Sincerely,

*Nick Kuris*
