

Mr. Maurice W. Nittler
Box 94
Geneva, Nebraska

June 10, 1955

Dear Mr. Nittler,

Your letter was gratefully received by Radio Station KLOH. A quick check showed that the music you recognized on the morning of June 8 had been played on the test program that ran from 12:00 to 5:00.

KLOH is a two-tower directional thousand watt station. The transmitter is manufactured by Raytheon and the studio equipment is by RCA.

KLOH will be on a regular daylight to dark schedule soon, and if you hear us then, please write again.

Sincerely,

E. J. Britsch
Office Manager
