RADIO STATION K F U O

801 DEMUN AVE.
SAINT LOUIS 5, MO.

4 March 1964

Dear Mr. Nittler,

Station KFUO is pleased to receive your reception report made March 1 and to send this verification. We invite you to tune in again.

It was especially interesting to the undersigned that KFUO could be heard because of your great distance and because of local stations on that frequency. Thanks again for taking the time to report.

Cordially,

John R. Fischer
Chief Engineer
