Mr. Maurice W. Nittler
Box 94
Geneva, Nebraska

Dear Mr. Nittler:

We wish to acknowledge your reception report on Station KSD, November 15, 1956 at 5:17 pm CST. The programs you have mentioned were broadcast by this station so this will serve as verification.

This station is one of the older stations on the air, since 1922, however, we are on a frequency along with several others and do not receive the protection we did in the early days.

We use 5000 watts day and night, directional at night with main signal extending to the north, south and west.

Many thanks for writing and the information regarding your city of Geneva.

Good luck on your DX.

Yours very truly,
RADIO STATION KSD
