Mr. Maurice W. Nittler
Box 94
Geneva, Nebraska

Dear Mr. Nittler:

Please accept our apologies for waiting so long before answering your letter. Our only excuse is that we've been so busy getting the station in full swing.

We would like to verify your report. It was absolutely correct, and we do appreciate hearing from you.

Our station is operating on 1000 watts now, 1470 kilocycles. We have gotten off to a very good start and surely hope it continues like this.

Thank you again for taking time to let us know that you did pick us up.

Very truly yours,

Rita Coker
Secretary
