Dear Maurice;

K XL F
BUTTE

This is to verify your reception of our broadcast for frequency check Jan. 17, 1955 from 1:45 to 2 AM MST. If you have made a carbon copy of your report to us kindly check it and note that you have down the wrong year and also one wrong time. However there is no doubt in my mind what you really did mean so I am gladly verifying your report.

GREAT FALLS

We operate with an unlimited license on 250 Watts. Normal broadcast day from 6 AM to midnite. We are the NBC station in Helena. The only other station is Mutual. Our Transmitter is RCA Model 250-G and is quite old but still giving good service. Our antenna is a self-supporting tower 160' high. Nice to hear from you and thanks for the report.
