Dear Mr. Nittler:

You indeed heard KYSS, February 6, 1967, 2:20am to 2:50am MST.

We were on the air conducting a frequency check with Northwest Manitering Service, Pendelton, Oregon. We identified the station exactly as you stated in your recent letter of reception.

We conduct these frequency checks with Northwest every three months on the first Monday of that month at about this same time. We are able to get though to Pendelton just between the hours of 2:00am and 4:00am because KISW in Vancouver, Washington is on the air 24 hours a day evry day except early Monday morning at these times. They apprently use these 2 hours of off time for maintenance work.

Thank you so much for your complete report. I sincerely beleive that this helps us in our work.

I hope to hear from you again in the future.

Sincerely,

Dutch Meyer, Chief Engineer  
KCMY, KYLT, KYSS, KUFM.
