U.S.A.

Dear Mr. Nittler,

Thank you for your letter of reception report and according to the details included therein I can confirm to you that it was Radio Cayman you were listening to on September 24th, 1978 between the hours of 10 Pm and 12 PM midnight EDT.

You mentioned McCook is a city of 9,000 people. The Cayman Islands population is not much more, it is now at 15,000. We are located 600 miles south of Miami with average yearly temperature of about 79 degrees with white sandy beaches and green emerald blue waters.

Since you are from the "Cornhusker State" that would most probably make you a Cornhusker fan. One of my most memorable football games was between the Cornhuskers and the University of Miami Hurricanes in the Gotham Bowl.

If you are ever in this area, drop in and say hello.

Best wishes to you.

Sincerely,

A handwritten signature in blue ink that reads "Loxley Banks".
