Telling the Good News Abroad

From
GUATEMALA
"Beautiful land
of the Quetzal"

Frequencies:

730 kc.

5,955 kc.

Facts:

The Quetzal is the national emblem of Guatemala. This bird seldom survives in captivity, hence, symbol of liberty.

"If the Son (Christ) therefore shall make you free, ye shall be free indeed".

John 8:36.

TNX-4-UR-report on 730 MC. dated March 2, 1970 73's

BOX 601
GUATEMALA CITY, C. A.

Wayne Berger
Engineer

August 4, 1967

Dear Mr. Nittler,

We received your report of reception and having checked it, it corresponds with our logs.

TGN and TGNA both operate with a power of 10,000 watts. We have our studios here in Guatemala City and our transmitters are located approximately 15 kilometers from the city, in a town called Petapa.

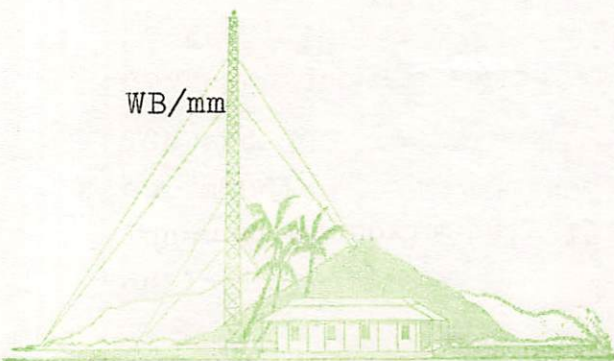

We are currently using a quarter wave vertical antenna for our standard broadcast frequency and a four element array for 49 meters.

Thank you for your reception report. Enclosed you will find the information that you requested.

Very sincerely yours,

Wayne Berger
Station Engineer.
