Mr. Maurice W. Nittler,
P. O. Box 94,
Geneve, Nebraska.

Dear Mr. Nittler:

Thank you very much for your nice letter of the February. We are always glad to hear from friends across the United States -- as to the way our station is received in their homes.

Ours is a small station as we work on 1,000 watts during the day and at night we come down to 250 watts. However, on test -- nights we dos so with 1,000 watts.

Your report is confirmed in every way as correcto, and -- we only regret the interference of other stations which will keep -- you from a clear reception.

We have a teste every month on thefourth Friday from 1 to 1:30 a.m. C.S.T. and we would be very glad to have listen you again and hear from you as we did this time. We should be on the air --- again on the morning of the 22 th at the hour specified.

Thanks again for your kind communication and please if -- ever you are down around these parts do not fail to drp in to see -- us and let us reciprocate in some manner.

Sincerely yours.

Radiodifusora X.E.O.K.

Ing. Luis Roa Garcia.
