Maurice W. Nittler
Box 94
Geneva, Nebraska

Dear Sir:

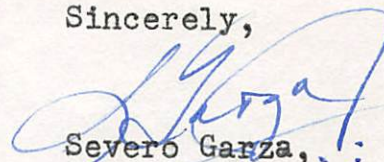

We are happy to verify your reception of our station.

XEOR is located at Reynosa, the state of Tamaulipas, Republic of Mexico. We broadcast at 1390 kilocycles with the power of 1,000 watts on a non-directional pattern. Our hours of operation are from 5:00 A:M 'til midnight daily except Sundays when we sign off at 10:00 P:M.

Reynosa, Mexico is located approximately 8 miles due south of McAllen, Texas and our transmitter is located approximately 2 miles west of our Reynosa city limits on the main highway to Monterrey.

We broadcast in Spanish language only, but as a matter of policy, do offer station identifications in both English and Spanish. Thank you for your nice letter.

Sincerely,

Severo Garza,
Chief Engineer
